- Full address of the property including zip or postal code.
- Your Phone number, time zone and contact name.
- The names of all people and animals living at this address.
- The name or address to appear on the certificate. This is a simple address for homes but often specific names for farms, cottages, and businesses.

If you agree to proceed, I am required to ask permission from the Deva or consciousness of the property to begin. Once permission is attained the process begins. The process to remove the energy is normally accomplished quickly and within a day you should start feeling the difference. The clearing, however, is not complete as it will only proceed at the appropriate level for all concerned. As residents adjust to the new higher energies then the Devas clear more deeply. This step by step process assures that no one is thrown out of balance too quickly as they would feel unsettled. The full clearing may take a week to a month. The property energy is assessed regularly to determine the balances. Once it is complete, a certificate is issued and mailed to the requestor at the completion of the process. Please note that the clearing will be an ongoing agreement between the devas of the property and the divine. Should you experience any further challenges please let me know.

In checking this box, I agree to the above conditions and parameters.
